

## **The Publisher**

Head: mgr Magdalena Pięta

Technical assistant: mgr Wioletta Sobczak

The following items are published by the Institute:

- JOURNAL OF APPLIED GENETICS - in English
- NEWSLETTER ON PLANT BREEDING FOR RESISTANCE - in English
- LISTY BIOMETRYCZNE / BIOMETRICAL LETTERS - in Polish or English
- ROZPRAWY I MONOGRAFIE / TREATISES AND MONOGRAPHS - in Polish or English

### **JOURNAL OF APPLIED GENETICS**

Is a continuation of a journal established in 1960 by Professor Stefan Barbacki and entitled *Genetica Polonica*. The Journal of Applied Genetics is a quarterly presenting original and review papers, as well as short communications in theoretical and applied genetics of plants, animals, humans and microorganisms. Apart from scientific papers the journal publishes reviews of books concerning genetics and breeding as well as related disciplines. The first Editor in Chief of *Genetica Polonica* was Professor Stefan Barbacki, who served that function from the beginning of the journal until his death (1979). In the following years the Editors in Chief were Tadeusz Ruebenbauer (1980-1991) and Profesor Zygmunt Kaczmarek (1992-1999). Starting from 2000 to the present Profesor Marek Świtoński has been the Editor in Chief, and his associate editors are docent Maria Surma (plant genetics), Dr Maciej Szydłowski (animal genetics) and Professor Michał Witt (human genetics). The Editorial Board is composed of Polish and foreign specialists in different fields of genetics.

Journal of Applied Genetics is indexed at: Agro-Agen., Anim. Breed. Abstr., Biol. Abstr., CAB Abstr., Chem. Abstr., Curr. Adv. Biochem., Curr. Adv. Cell & Devel. Biol., Curr. Adv. Ecol. Sci., Curr. Adv. Genetics & Molec. Biol., Excerpt. Med., Field. Crop Abstr., Helminthol. Abstr., Herb. Abstr., Hort. Abstr., Ind. Sci. Rev., Index Medicus/MEDLINE, Ind. Vet., INIS Atomimid., Maize Abstr., Plant Breed. Abstr., Plant Grow. Reg. Abstr., Sci. Cit. Ind., Seed Abstr., Soil & Fert., Triticale Abstr., and Vet.Bull.

## NEWSLETTER ON PLANT BREEDING FOR RESISTANCE

It is a bulletin presenting current information on symposia and the latest advances in science, publishing summaries of papers concerning resistance breeding of cereals. It has been published since 1993 as a quarterly. Professor Jerzy Chełkowski is the Editor.

## LISTY BIOMETRYCZNE / BIOMETRICAL LETTERS

It is an official journal of the Polish Biometrical Society, published since 1964. Presented papers concern various aspects of analyses and interpretation of biometric experiments performed using mathematical statistics methods. The focus is on review papers and papers for the general public connected with the application of different methods of data analysis in practice. Articles are published in Polish or English. Two issues of the journal are published annually. Professor Zygmunt Kaczmarek is the Editor in Chief, his associate editor is Professor Bronisław Ceranka, while the production editor is docent Paweł Krajewski.

## ROZPRAWY I MONOGRAFIE / TREATISES AND MONOGRAPHS

They constitute a series of publications created on the initiative of Professor Ignacy Wiatroszak in 1992. Within this series studies are published concerning plant genetics and related breeding problems. Results of research studies conducted at the Institute and monographs concerning important theoretical and practical aspects of genetic studies are published within this series. The Editor in Chief of the series is docent M. Surma. So far a total of 15 items have been published:
